## Vaccination: 50 Things Doctor Forgot To Tell You

### Smallpox

- Smallpox would have disappeared around 1870 if Jenner's cronies had not persuaded Parliament to force the smallpox vaccine onto children in 1867, causing the largest epidemic of smallpox ever with a peak of 42,000 deaths in 1872.
- To test the effectiveness of natural immunity versus vaccination, the nonvaccinated Kingston Clinic staff challenged six vaccinated doctors to join them, in 1936, in a smallpox isolation unit. The doctors had the very good sense not to accept the offer.
- The degree of AIDS incidence in Brazil, Haiti, Burundi, Ruanda, Tanzania, Zaire, Zambia, Uganda and Malawi coincides with the degree of smallpox vaccination intensity.

### Polio

- American health authorities are considering a complete change of policy in the face of strong evidence that all cases of polio are caused by the polio vaccine.
- Bernard Reis, English professor at Cornell University and an "energetic, athletic achiever" was paralysed by polio a month after his baby was, by law, polio-vaccinated.
- One point one million dollars damages were awarded to Kay McNeary after she was crippled by polio after changing her baby's nappy.
- Millions of children, in the fifties and sixties, were given the Salk vaccine contaminated with the cancer causing virus SV40.
- Dr F Klinner stated, "Many here voice a silent view that the Salk and Sabin vaccines, being made of monkey tissues, have been directly responsible for the major increase of leukaemia in this country."
- The Lancet reported an outbreak of paralytic polio in Oman in fully vaccinated children. The vaccine lobby said what was needed was an increase of the vaccine dose at birth, 6,10 and 14 weeks, and at times of other vaccines being given.

## Tuberculosis

- The World's largest vaccine trial, in Southern India, of the BCG vaccine, resulted in more TB in the vaccinated group than in the control group.

## DPT

- The whooping cough vaccine is made from the mucus of infected children, mixed with formaldehyde, aluminium and mercury.
- In a recent study of 540 Dutch babies, 512 had adverse reactions to the DPT vaccines.
- Thirty thousand cases of diphtheria have occurred in recent years, in the UK, amongst diphtheria vaccinated children.
- A University of California study showed that 1,000 SIDS (cot deaths) per year are caused by the DPT shots.
- Dr Robert Mendelsohn, paediatrician, said, "...nearly 10,000 SIDS each year" (in the USA) "are related to the vaccines routinely given to children."
- In 1986 Dr Michael Weiner PhD. stated, "More die each year from SIDS than the total number of all AIDS cases since 1981, yet little research money has been allocated to study the possibility of a relationship between these deaths and the DPT vaccine."

## MMR

- Over a period of four years, in the UK, 66% of all measles cases were in vaccinated children.
- In a 1986 measles outbreak in Corpus Christi, Texas, 99% of the children had been vaccinated.
- 26% of children rubella-vaccinated developed arthralgia or arthritis. (US Science magazine.)
- Trials on the rubella vaccine, in the USA and Australia, show a failure rate of between 80 and 93%.
- Dr Glen Dettman found that one third of rheumatoid arthritis sufferers had live rubella viruses in their joints.
- The Lancet reported that West German authorities had listed 27 neurological reactions to the mumps vaccine, including meningitis, febrile convulsions and epilepsy.
- There are 30,000 new cases of epilepsy; 10,000 of which are children, in the UK alone, each year.

## Hepatitis B

- The hepatitis B vaccine is made from the blood of human beings infected with hepatitis B; ie someone at high risk of developing AIDS.
- A Lancet study of 1991 showed a 20% hepatitis infection rate in 358 hepatitis-vaccinated Gambian children.

## HIB

- A Minnesota study showed that the American Hib "polysaccharide" vaccine increased the risk of Hib-induced meningitis five-fold.

- The Lancet, August 1991, reported 9 cases of Hib-induced meningitis in vaccinated children.
- A study on the least useless Hib vaccine - the PRP-OMPC - in Los Angeles found a lowering of antibody response as vaccine dosage increased.

### Influenza

- The Post Office dropped influenza vaccine promotion after it failed to show any reduction in absenteeism.
- The "Influenza Monitoring and Information Bureau" is funded by the influenza vaccine manufacturers.
- Six hundred elderly, influenza-vaccinated Birmingham people showed over double the respiratory disease than a similar non-vaccinated group.
- Dr Robert Mendelsohn stated that any influenza vaccine could cause Guillain-Barre Syndrome and paralysis.
- Influenza vaccines are made from material taken from 'flu victims; material then processed with mashed chick embryos, taken from disease-ridden intensive battery sheds.
- In November 1991, a Chesterfield man died within hours of being injected with the vaccine.

### Typhoid

- The typhoid vaccine is made from the excrement of typhoid-infected people.

### Cholera

- The World Health Organisation has finally admitted, after countless cholera jabs, that the vaccine is useless, and has advised that, "It is not worth having."

### In General

- Known and suspected effects of vaccines include, asthma, eczema, increased allergies, encephalitis, cancer, leukaemia, cot death, meningitis, lower motor neuron disease, juvenile diabetes, violent behaviour, and so on.
- American medical historian, Harris Coulter, writing in 'Vaccination, Social Violence and Criminality' states, "A large proportion of the millions of US children suffering from autism, seizures, mental retardation, hyperactivity, dyslexia and other shoots and branches of the hydra-headed entity called 'developmental disabilities', owe their disorders to one or another of the vaccines against childhood diseases."
- According to Dr R de Long, "Since 1981 we have been immunising the human population with attenuated (live) viral vaccines en masse. Such unparalleled use... may be the reason for the appearance of new diseases."
- We now have 20,000 new diseases, and rising.
- Vaccine makers, acting through corrupt bureaucrats, politicians and mass media agents, have always been able to pass off their wares after fraudulent animal testing; the human being is the real guinea-pig.
- Dr J A Morris, leading US infectious disease expert declared, "We only hear about the encephalitis and the deaths, but there is an entire spectrum between fever and death, and it's all those things in between that never get reported." -

- Dr R Mendelsohn said, "There now exists a growing theoretical concern which links immunisation to the huge increase, in recent decades, of auto-immune diseases, eg rheumatoid arthritis, multiple sclerosis, lymphoma and leukaemia."
- According to Dr Duperrat, "...vaccination causes, furthermore, an explosion of leukaemia."
- A report in the *Revue de Pathologie et de Physiologie Clinique*, stated, "The vaccine modifies the terrain of the vaccinated, driving it towards alkaline and oxydised terrain; the terrain of cancer, the fact can no longer be ignored."
- Dr R Moskowitz, writing in the *Journal of the American Institute of Homoeopaths* stated that vaccination could arouse latent, cell-bound, antibodyimmune viruses, leading, through stress or shock to "autonomous multiplication of cells, ie. cancer."
- Professor R Simpson, of the American Cancer Society, said that vaccines may cause rheumatoid arthritis, multiple sclerosis, systemic lupus, erythematosus, Parkinson's Disease, and cancer.
- All the available evidence shows that the decline of the infectious diseases was due to social factors, hygiene, sanitation, housing, nutrition, etc.
- Dr Moskowitz suggests that there are "fewer greater insults one can offer the immune system of a young child than to introduce, directly into his/her bloodstream, the foreign proteins or live viruses that compose modern vaccines."
- And finally, if doctor, his receptionist, nurse and the "health visitor" cannot bully, threaten and arm-twist 90% of mothers on doctor's list into having their offspring permanently damaged with vaccines, doctor will not get his annual bonus - on top of everything else - of £1,737.
